Description of design:

About the Artist:

Please use the following template to illustrate your design. Note that this template represents just an example of one of the styles available. This style represents our Sparrow House; the other styles are Wren Houses (diamond-shaped from the front) and Nesting Boxes (larger, rectangular, and with a front-sloped roof). **Please note that while all the birdhouses are wood, the roofs are metal.**

Feel free to attach any other drawings/materials that would help to explain your design idea.
